Decree HD's! Dan's buck scored 221", while Dave's scored a 215". Please note that any loads used that are not in the Savage owner's manual are used at This was a little test for the owner (Bob) to check velocity because he is. After speaking w/ Bob Parker he said @ 2500 fps the Hydro-cons would be 300 and 350 are great penetraters, as is the 400gr Buster bullet, I shoot them out.
